Nook is a generous lounge chair that embraces the need for privacy within social settings. Its distinctive shape is determined by a PET Felt shell granting the chair its soft and inviting expression. An insert in the shell accommodates an upholstered cushion for a superior level of comfort. Enveloping the shell from the rear is a slender steel frame that holds everything in place, outlining the chair's original form. Nook is suitable for hotel lobbies, lounge zones and waiting rooms. Choose from eleven PET Felt blends and numerous options for frame and upholstery.

Designed by **Johan van Hengel**

Product overview

Weight

12.5 kg

Certifications

- ISO 12947-2:2016 Abrasion resistance test (performed on PET Felt)
- ISO 12945-2:2000 Pilling Martindale (performed on PET Felt)

Care & Maintenance

Due to its porous structure, PET Felt can be easily cleaned with water. To remove most stains, it is sufficient to apply a copious amount of water and let it drip through. Do not rub the PET felt surface to avoid excessive pilling. If water is not sufficient, stubborn stains can be removed with professional cleaning products like the James cleaning set.
